## DETAILED ACTION

### *Election/Restrictions*

This application contains claims directed to the following patentably distinct species of the claimed invention:

- 1) Figures 1, 2 and 4 show the embodiment of the first species.
- 2) Figures 5-7 show the embodiment of the second species.

This application contains also claims directed to the following patentably distinct subspecies of the interconnection elements of the claimed invention:

- a. Figure 3A is the embodiment of the first subspecies.
- b. Figure 3B is the embodiment of the second subspecies.
- c. Figure 3C is the embodiment of the third subspecies.
- d. Figure 3D is the embodiment of the fourth subspecies.
- e. Figure 3E is the embodiment of the fifth subspecies.
- f. Figure 3F is the embodiment of the sixth subspecies.
- g. Figure 3G is the embodiment of the seventh subspecies.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species and subspecies (ex. Species 2, Subspecies e) for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, none of the claims are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of **ALL CLAIMS** readable

thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

A telephone call was made to Mr. Marc Began on 5/9/02 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
